

Google Doodle Report

This document shows the current Google Doodle by using the `rvest` packages.

Obtain the url for the current Google Doodle using `rvest`:

```
library("tidyverse")
library("rvest")
library("glue")

google_doodles_page <- read_html("https://www.google.com/doodles")
doodle_url <- google_doodles_page %>%
  html_node(".latest-doodle") %>%
  html_node("img") %>%
  html_attr("src") %>%
  str_replace("//", "")
doodle_url
```

```
